

DRAWINGS ARE NOT TO BE SCALED

A. The only two individuals who were not in the water and not moving at the end of the 10-min period in the experiment were the two individuals who were not in the water at the start of the experiment.

Subject: Re: 4 Middleport Rd

Good afternoon the amount of work we do that is agriculture related would be 70%
We supply and install and service a large variety of agriculture products such as
Radiant tube heaters for chicken barns and Tabbacco storage barns
Infloor hydronic heat for equipment repair and storage barns
Tobacco and ginseng kilns
Fans and ventilation equipment for barns
Hvac systems for feed mills
Gas line to grain processing facility's
Bunk houses for migrant workers
Heaters and ventilation for green houses
Boiler installation and repair for agriculture uses
Rebuilding of Tabbacco and ginseng kilns sheet metal and burners
Regards
John Corner

John as we discussed previously the property is designated by the Official Plan as "Agricultural" which as the name implies is for normal farming uses. A limited range of secondary uses are permitted including agriculturally related commercial and industrial uses that are required to be located in close proximity to farming operations. I assume that you serve a range of customers, what percentage is to the farming community and what range of services do you perform to farms. This is an important aspect to the application.
