Re: Clean Water Act, 2006 – Source Protection Plan Review for the Plan of Subdivision and Zoning By-Law Amendment Applications for 70-72 Beverly Street West

The Clean Water Act, 2006 was brought into effect “to protect existing and future sources of drinking water” for the province of Ontario. This is accomplished through the creation of Source Protection Plans that identify threats to drinking water sources and set out policies to help minimize and mitigate the risks associated with those threats.

The following property is located within the Lake Erie Source Protection Region and is governed by the policies of the Grand River Source Protection Plan that was approved on November 26, 2015 and came into effect on July 1, 2016.

This property is within the Intake Protection Zone 3 (IPZ-3), which has associated vulnerability scores of 6, 5, and 3, as denoted on the enclosed map of the property.

Property: 70-72 Beverly Street West
County of Brant, ON
Assessment Roll #'s:

292001603028900
292001603028800
292001602077200

This property has been reviewed by the Risk Management Office and this letter serves to inform the County of Brant that there are currently no significant drinking water threats confirmed on the property due to the following reasons:

1. Significant drinking water threats are not possible within the IPZ-3 with a vulnerability score of 6;
2. Significant drinking water threats are not possible within the IPZ-3 with a vulnerability score of 6; and
3. Significant drinking water threats are not possible within the IPZ-3 with a vulnerability score of 3.

There are no further requirements for this property under the Grand River Source Protection Plan. If you would like to discuss the Source Protection Plan or the details of this letter, please contact our offices for clarification and assistance:

Risk Management Office
