Charitable No. 8282 52346 RR0001

Hi there,

I am submitting a proclamation request on behalf of Childhood Cancer Canada for September 01 2021, in honour of Childhood Cancer Awareness Month. Childhood Cancer Canada aims to observe Childhood Cancer Awareness Month every September by lighting up Canadian landmarks in gold in honour of families affected by childhood cancer, as well as observing proclamations. Landmarks across the country are lit gold to honour the Gold Ribbon, the international symbol for childhood cancer awareness.

Childhood cancer does not discriminate and can be diagnosed in children throughout the country. We are requesting your building to be lit up gold along with other Canadian landmarks to represent children with cancer both nationally, including those who have died from cancer and those who may still be diagnosed in the future. This campaign tells these children and their families that they are not alone.

Thank you. Please contact Julia Verdugo julesverdugo@hotmail.com with any questions.
