Hello Dan, I wanted to reach out regarding the notice we received about the proposed tower installation at 447 Baptist Church Road.

I have reviewed the newest set of papers, but the application seems to be the same as the one that was previously voted down. I have also compared the maps and they seem to be the same as well.

Since we are very new to this, I was hoping you could outline what this newest application is for and how it differs from the first one? And if you could also explain the difference between a 'public information meeting' and a 'statutory public meeting', it would be very helpful.

As you may recall, the Chair of the Board requested that LandSquared work with us to find a suitable location. We reached out to Tracey in February and other than a mentioning they were preparing an update for submission, we haven't heard anything further.

Thank you again for all your help.

Colleen & Matthew Kelly
