Hello again Everyone, I hope 2022 is finding you well!

In today's mail, January 28th, we received notice of the Public Meeting on February 1st. Unfortunately, this doesn't give us much time to prepare anything.

I'm hoping one of you will be able to tell us what to expect at this meeting?

We did present our case in December, and I recall that Land Squared had to provide additional information with regards to the Mount Hope Airport and the number of homes in the area that would benefit from the building of the tower. I also remember being surprised to find out that the tower was being built closer to our home than the recommended guidelines put out by the County, but I'm not sure if they have to comment further on that issue?

With that being said, are we expected to make another presentation, or is the Council going to announce their decision?

And if the decision is not in our favour, I understand we will have a chance to appeal?

Thank you so much for all your help.

Colleen & Matthew Kelly
