

Hello,

My house is on [REDACTED], we are against the expansion of the pintys plant. Currently we are very annoyed by the noise of the plant, and the odour. We can't sleep with an open window. The house will smell like chicken frying restaurant if we keep the window open.

The noise is like a truck with an engine on outside of our house. This is not acceptable, plants like this should be outside of the city away from our houses. I may not be able to make it to the meeting, but we are all strongly against the plant and it's expansion.

Best Regards,

Sohaib
