

Hello, my name is Dustin Haw and would like to provide my comments on the proposed rezoning for 428-452 West River Rd. First and foremost I would like to state that I live directly across the road (at 451 West River Rd) from the old farm house in question and I am the only resident in all of Brant County that has a direct view of this house day in and day out.

This old farm house is a beautiful piece of history and I think it would be a shame not to grant the rezoning and preserve the building. I see people stop to take pictures in front of this farm house on a daily basis during the summer months. I think this is exactly the type of history we should be striving to protect in Brant County.

With that said, I am in support of the proposed rezoning.

Feel free to contact me if you would like to discuss further.

Dustin Haw
