

# Change of Address Request

Jessica Robbins

# Current Situation:

- 51 Norwich Road and 51 Church St West Scotland are neighbouring properties.
- Deliveries, visitors and emergency services have difficulty finding the correct address.
- There is a small sign along the road that states Church St West is becoming Norwich Road which is supposed to help people, but its too small to see at 80 km/hr
- 51 Church St West is currently not lived in.

# Examples of Issues:

- 51 Church St West had a farm auction in the fall. More than 30 vehicles pulled into 51 Norwich Road for the auction instead of 51 Church St West even though there was signage out front of 51 Church St West.
- The previous owner of 51 Norwich Road explained to us that this issue has been a long standing one as he called an ambulance and it went to 51 Church St instead of 51 Norwich Road. I am concerned for both properties that these addresses could get confused in another emergency situation.
- One delivery service has repeatedly commented on the strange situation when trying to deliver packages to the properties.

Total: 619.14 m

619.14 m

CHURCH STREET WEST

51

- The distance between the driveways is under a kilometre. (620 metres)
- You cannot see the houses from each other because of a cedar tree line.
- For someone looking for each of these addresses, they assume the first 51 they arrive at is the correct one, as having two 51's side by side is confusing and unlikely in most situations.

# Request:

- I am requesting that the address for 51 Church St West be changed while the property is vacant. I realize changing the address is inconvenient for everyone involved, which is why I believe it has not been addressed previously.
