

Simmons-Hopkins Municipal Drain

66 Grand River Street North, Paris
Consideration of Report
December 17, 2024

Authority

R. J. Burnside & Associates Limited (Burnside) was appointed by the County of Brant in accordance with Section 78(5) of the Drainage Act, R.S.O. 1990.

Minor Improvement Project Requirements (O. Reg. 500/21)

- ✓ The activity takes place on an individual property
- ✓ All costs and fees associated with the project are the responsibility of Stubbes Precast Commercial
- ✓ The activity will not change the function of the existing drain
- ✓ There are no proposed changes to how future maintenance costs are allocated to property owners within the watershed

*Simmons-Hopkins Municipal Drain
Looking downstream from Muir Road*

Report Recommendations

*Simmons-Hopkins Municipal Drain
Looking upstream from 9th Concession Road*

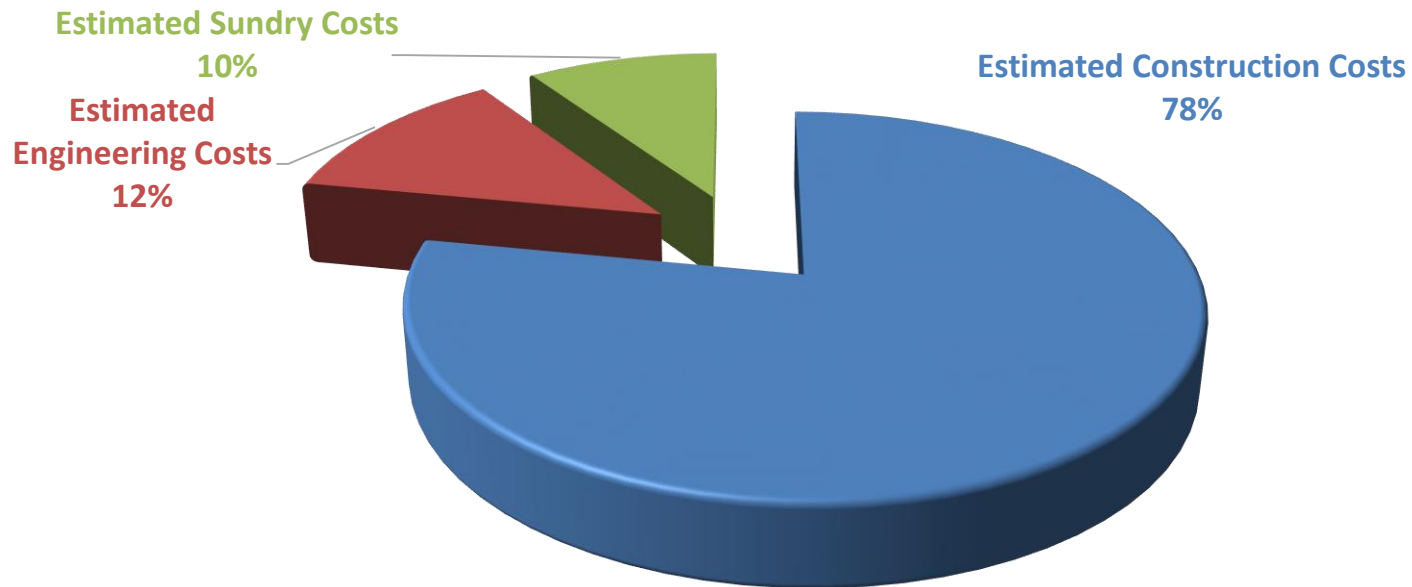

Realign approximately 320m of the Simmons-Hopkins Municipal Drain on the Stubbes Precast Commercial Property

That the re-aligned section be adopted and maintained in accordance with this report as it relates to gradient and specifications

The K. Smart Associates Limited report (August 18, 1998) be used to distribute all future maintenance costs

Project Cost Summary

Estimated Construction Costs	\$ 124,800
Estimated Engineering Costs	\$ 20,000
Estimated Sundry and Other Costs	\$ 15,200
Estimated Total Project Costs	\$ 160,000
